

Minutes of the Clarification meeting and site visit held on October 16th 2018 related to procurement procedure for installation of solar station for electric cars.

Present were representatives of companies invited to tender, project designer and of Contracting Authority:

1. Ivan Pisačić, EUROKOD Pisačić d.o.o. Zagreb
2. Katica Gagulić and Leon Piperković, Hrvatski telekom d.d. Zagreb
3. Josip Heđi, TEO Belišće d.o.o, project designer
4. Ljerka Vučković, project coordinator, deputy mayor of the town of Belišće
5. Mario Marolin, Local development agency Belišće
6. Vedrana Kopic, Local development agency Belišće

The tenderers were invited to present their questions and suggestions related to the tender documentation and technical specifications.

Mr. Pisačić suggested that the specification of the charger in be changed in order to be more general, if this is possible with the Main project design.

The project designer agreed, and the representative of Hrvatski telekom also agreed that this would be useful. The project designer will make a statement in this matter.

It was agreed upon that the project designer will make the change and the new unit price specification will be delivered to all the invited tenderers and published with documentation on the web site of the Town of Belišće.

Since this was the only issue tackled by the present representatives of the invited tenderers, the meeting proceeded to site visit.

All of the interested parties present visited the location of the solar station and in this way the project design was more clear.

The representatives of the invited tenderers who were present at the clarification meeting and site visit were satisfied with the meeting and received additions information.

In Belišće, 16 October 2018
